

TOOLS – SCALE OF CONSCIOUSNESS EMOTIONS LIST

"One individual who lives and vibrates to the energy of pure love and reverence for all of life will counterbalance the negativity of 750,000 individuals who calibrate at the lower weakening levels."

– Dr. Wayne Dyer

In Power vs. Force, David Hawkins provides a map of consciousness highlighting where specific emotions calibrate on a logarithmic scale that spans from 0 to 1000. From conducting over 250,000 calibrations during 20 years of research he defined a range of values, attitudes, and emotions that corresponded to levels of consciousness.

The following table adapts and expands on the emotions he identified so that you have a broader range of emotions to reference when measuring where you are currently calibrating. The table below is not an exact representation of Hawkins work, it is meant to serve as an approximate reference.

Emotions are neither good nor bad. They are a natural movement of energy that carry valuable information on your current calibration. From a deliberate creation and empowerment standpoint, the focus and intention is to move yourself up the levels so that you are embodying empowered mindsets and high-calibrating emotional tones. The higher the calibration of the emotion, the more life energy and creative power is flowing through your nervous system.
